 Isabelle Martin - Iluka

ITEM	ACTION	Outcomes
Project Update	Discussion of project update to date	DP: Happy to hear of progress, sees a more traffic around town and it feels busier. DK: Hears about project from Tara, good to know the project is progressing as planned.
Previous Agenda Items: • Drug and Alcohol Screening • Payment Terms	Drug and alcohol screenings will be requested prior to site attendance for cultural heritage works Payment terms have been amended for all RAP parties engaged for cultural heritage works. Invoice template will be distributed.	DP: Glad to hear that D&A screens will be required by survey participants. Wants everyone to be safe and return safely at the end of the day. Very happy to know payment terms have been formally amended for PFAC- we are a small business who pay our workers as soon as possible, appreciate Iluka doing the same. DK: Happy to hear D&A screens will be required by survey participants. There will be no issue passing a DAS from Kelly mob but happy to hear others will be maintaining the same standard. Thankful that payment terms are changing, understand we are a big business with processes to follow but its appreciated.
Unexpected Finds Update	Discussion of Iluka's response to unexpected finds made within the project development envelope in 2024.	DP: Glad to hear that Iluka is showing respect for Country and acknowledging unexpected finds. Looking forward to working with EMM or Regal Heritage toward documenting these finds in the New Year. DK: Appreciation shown to Steve Lihou for keeping an eye out for items of cultural significance on site. Steve is helping Iluka to protect Country, glad he is protecting Mutthi Mutthi Country. Acknowledgement of EMM and Regal Heritage as two solid archaeology mobs to document and store these finds.
Project Salvage Works	Discussion of proposed Solar Farm salvage and collection works for March/April 2025.	DP: Happy with proposed plans and amendments to CHMP. Looking forward to working back out on Country in the New Year. Pleased to hear Iluka are progressing with establishing a solar farm. Confirmed letter will be emailed out. DK: Happy with proposed plans and amendments to CHMP. Great to hear that Iluka are creating a solar farm - lower emissions and impact to environment. Will review letter and respond with confirmation asap.
RAP Recruitment Drive	Discussion of proposed RAP Recruitment Drive for 2025 and opportunities for engagement with the Iluka Indigenous Affairs team.	DP: Very happy to hear of this plan, a good initiative and helpful to a lot of younger family in the area that are looking for opportunities, tickets that can be used throughout the industry and help with resumes. DK: Great work by Iluka, there are lots of young people in the area that will be interested in this and benefit from the support shown by Iluka. Tickets like White Card can take these young people anywhere they like, especially if they can get some experience in the industry with Iluka too.
