NARNGULU WINS ABORIGINAL ENGAGEMENT BUSINESS AWARD

Iluka's Narngulu operation has partnered with the Clontarf Foundation since 2008 and SHINE since 2017. These partnerships include sponsorship, site tours, work experience opportunities for Year 12 students and working with students throughout the year to assist in their job readiness.

Narngulu has an excellent reputation as an employer and our inclusive employment practices have resulted in a significant portion of our workforce (12%) being persons who identify as Aboriginal. All of these employees are from Geraldton or the wider Mid West community, providing benefit to their families as well as the local economy.

Narngulu currently employs eight Clontarf Foundation graduates on a full-time basis. This includes two who have completed apprenticeships, and a further two who came through the traineeship programme with one now an Operator and the other an Assistant Supervisor at age 24.
