¹ Under Listing Rule 4.7.3, an entity must lodge with ASX a completed Appendix 4G at the same time as it lodges its annual report with ASX.

Listing Rule 4.10.3 requires an entity that is included in the official list as an ASX Listing to include in its annual report either a corporate governance statement that meets the requirements of that rule or the URL of the page on its website where such a statement is located. The corporate governance statement must disclose the extent to which the entity has followed the recommendations set by the ASX Corporate Governance Council during the reporting period. If the entity has not followed a recommendation for any part of the reporting period, its corporate governance statement must separately identify that recommendation and the period during which it was not followed and state its reasons for not following the recommendation and what (if any) alternative governance practices it adopted in lieu of the recommendation during that period.

Under Listing Rule 4.7.4, if an entity chooses to include its corporate governance statement on its website rather than in its annual report, it must lodge a copy of the corporate governance statement with ASX at the same time as it lodges its annual report with ASX. The corporate governance statement must be current as at the effective date specified in that statement for the purposes of rule 4.10.3.

² "Corporate governance statement" is defined in Listing Rule 19.12 to mean the statement referred to in Listing Rule 4.10.3 which discloses the extent to which an entity has followed the recommendations set by the ASX Corporate Governance Council during a particular reporting period.

³ Mark whichever option is correct and then complete the page number(s) of the annual report, or the URL of the web page, where the entity's corporate governance statement can be found.

1 Introduction

The Board of Iluka Resources Limited (**Board**) is committed to conducting Iluka's business in accordance with the highest standards of corporate governance to create and deliver value for Iluka's shareholders. The Board has established a corporate governance framework, including corporate governance policies, procedures, charters and codes to support this commitment. The framework is reviewed regularly and revised in response to changes in law, developments in corporate governance and changes to Iluka's business. Copies of these policies, procedures, charters and codes are available on the governance page of Iluka's website, www.iluka.com, and are signposted throughout this document where relevant.

As a listed entity, Iluka must comply with Australian laws including the *Corporations Act 2001* (Cth) (**Corporations Act**) and the Australian Securities Exchange Listing Rules (**ASX Listing Rules**), and is required to report against the 3rd edition of the ASX Corporate Governance Council's Principles and Recommendations (**ASX Principles**). The Board considers that throughout 2016 it complied with the ASX Principles and this Corporate Governance Statement (**Statement**) reports on the corporate governance framework and practices adopted by Iluka.

The Board has a commitment to ongoing improvement of its governance practices. This year, a range of improvements to the Board's work and effectiveness were implemented, including:

- succession planning of the Board;
- a further review of the directors' skills matrix;
- the recruitment and appointment of a new Managing Director and CEO (**Managing Director**); and
- the appointment of a new non-executive director.

2 The Board of directors

The Board delegates to the Managing Director and senior management matters involving the implementation of corporate strategy and management of Iluka's day-to-day activities.

The following table sets out the matters which are expressly reserved to the Board and those which are delegated to management under the Board Charter.

The Board is responsible for:

- appointing and removing the Managing Director, determining his or her remuneration and terms and conditions of employment, and assessing the performance of the Managing Director and the executive management group;

provides that the Board must comprise a minimum of three and a maximum of 10 directors. The Board comprises a majority of independent directors with a range of skills, expertise and experiences from a diverse range of backgrounds. The Chairman is an independent non-executive director and is not the same person as the Managing Director of Iluka.

The Board considers that the current directors have the appropriate set of skills, diversity and experience to discharge their responsibilities and for the effective governance, oversight and strategic leadership of Iluka as a publicly-listed global resources company.

Our current Board represents different nationalities and backgrounds and currently includes two female directors. The average age of directors is approximately 58 years, with the age of directors on the Board ranging between 53 and 68 years. Further details regarding director experience and tenure are set out on pages 44 to 46 of the Annual Report.

2.4 Independence of directors

The Board recognises the importance of ensuring that directors are free from interests and relationships that might, or might reasonably be perceived to, materially influence a director's capacity to bring an independent judgement to bear on issues before the Board and to act in the best interests of Iluka and its shareholders generally.

Accordingly, the Board has adopted guidelines, set out in the Board Charter, which are used to determine the independence of directors and are based on the definition of independence listed in Box 2.3 of the ASX Principles.

In accordance with these guidelines, the Board generally considers a director to be independent if he or she is not a member of management and:

- is not a substantial shareholder of Iluka or an officer of, or otherwise associated with, a substantial shareholder of Iluka;
- is not employed, or been previously employed, in an executive capacity by Iluka or another Group member, or where they were previously employed in such a capacity, there has been a period of at least three years between ceasing such employment and serving on the Board;
- within the last three years has not been a partner, director or senior employee of a provider of material professional services;
- is not in a material business relationship (e.g. as a supplier or customer) of Iluka or another Group member, or an officer of or otherwise associated with someone with such a relationship;
- has no material contractual relationship with Iluka or another Group member other than as a director of Iluka;
- does not have close family ties with any person who falls within any of the categories described above;
- has not served on the Board for a period that his or her independence may have been compromised; and
- is free from any interest and any business or other relationship which could, or could reasonably be perceived to, materially interfere with the director's ability to act in the best interests of Iluka.

The Board considers the materiality of a director's interests, position, association or relationship on a case by case basis. Where a director has a relationship with a supplier or customer of Iluka, the Board specifically assesses the materiality of the relationship from both Iluka's perspective and the supplier's to determine if that relationship could be perceived as potentially interfering with the director's independent judgement. Having considered all relevant relationships currently existing, the Board has determined that there are no relationships which fall into this category.

The Board also has regard to length of tenure when assessing whether a director is, or continues to be, independent. The Board is satisfied that the length of tenure of its current directors does not call into question their independence.

For personal use only

Directors also have an ongoing responsibility to disclose any actual or potential transactions or interests that may create a conflict of interest. They may also be required to take steps to remove any conflict of interest. If a director cannot or will not remove a conflict of interest, then the director must be absent from the room when discussion and/or voting occurs on matters to which the conflict relates.

The Board has reviewed the independence of its directors and considers that the Chairman and each non-executive director are independent.

2.5 Access to independent advice

Under the Board Charter, directors may seek independent professional advice at Iluka's expense on any matter connected with the discharge of their responsibilities with the prior written approval of the Chairman.

2.6 Access to Board materials and information

Under the Deed of Indemnity, Insurance and Access, directors have access to inspect the company's records which have been prepared during or relate to the director's tenure or discharge of duties as a director in respect of the company.

2.7 Director appointment, election and re-election

All new non-executive directors are required to sign a letter of appointment that sets out the terms and conditions of their appointment, including: role and responsibilities; time commitments envisaged; disclosure of interests; dealing in Iluka's securities; and the requirement to participate in a performance evaluation process.

Under Iluka's Constitution, with the exception of the Managing Director, directors may not hold office without re-election beyond the third Annual General Meeting following their election or most recent re-election.

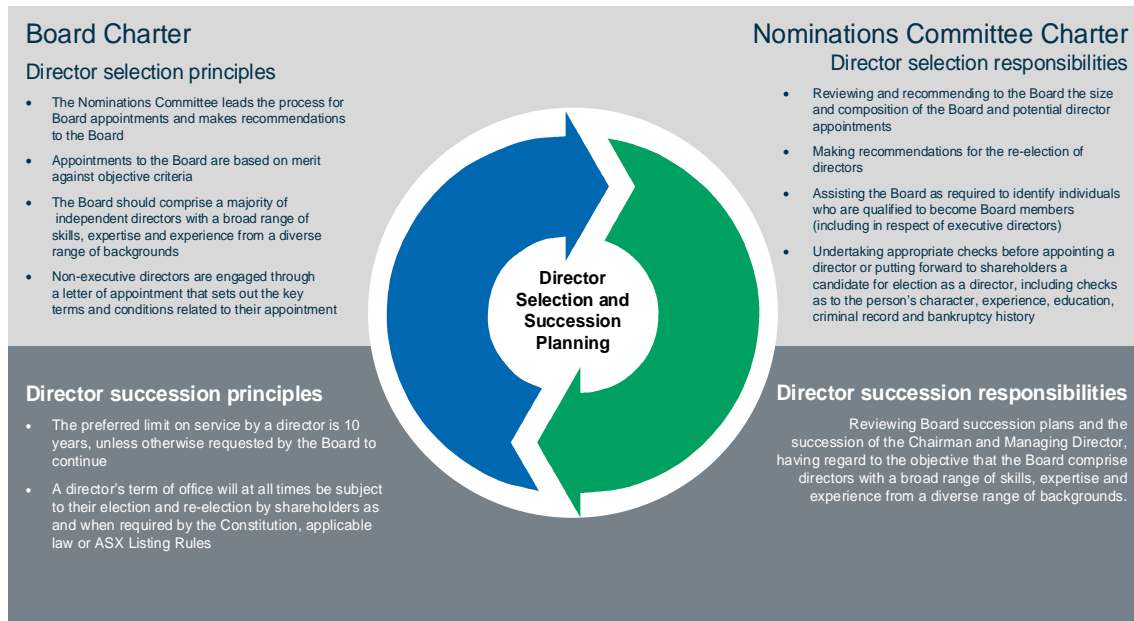

When a director candidate stands for election or re-election at a meeting of shareholders, Iluka provides shareholders with all material information in its possession relevant to a decision on whether or not to elect or re-elect that director in the relevant Notice of Meeting.

2.8 Director selection and succession planning

The Board renewal process is overseen by the Nominations Committee and involves regularly reviewing the composition of the Board to ensure that the directors have an appropriate mix of skills, expertise, experience and backgrounds relevant to the management of Iluka.

For personal use only

The Board Charter sets out the overarching principles regarding director selection and succession planning. The Nominations Committee Charter sets out the key nomination planning principles of the committee which is responsible for leading the process of Board appointments. The diagram below demonstrates the director selection and succession planning principles and responsibilities.

2.9 Director induction and continuing education

The Nominations Committee is responsible for ensuring that new directors are provided with a comprehensive induction programme (including business briefings by management and site visits).

The Board encourages directors to continue their education and maintain the skills required to discharge their duties effectively by providing professional development opportunities. Iluka meets all reasonable costs of continuing director education.

As part of Board professional development, in conjunction with Board and committee meetings, the Board participated in a number of briefings during 2016, which provided an overview of:

- the organisation or a specific function;
- the market environment in which Iluka operates;
- risks and opportunities for Iluka; and
- regulatory updates.

In addition, to ensure directors achieve a deeper understanding of the business, directors were involved in company familiarisation activities which included a visit to Iluka's operations in the Murray Basin (located throughout Victoria and New South Wales).

4 Performance evaluation and remuneration

Relevant policies and charters:

- Board Charter
- Nominations Committee Charter
- People and Performance Committee Charter

4.1 Performance evaluation

Each year, performance evaluations of the Board, its committees and individual directors are undertaken. The Nominations Committee assists the Board in relation to the conduct of performance evaluations and development and implementation of plans for identifying, assessing and enhancing director competencies. External facilitators may be engaged to assist with the review of the Board, its committees and individual directors.

The Board, Audit and Risk Committee and People and Performance Committee also conduct an annual self-assessment of their performance, which serves to identify strengths, weaknesses and areas for improvement. The completed assessments are taken into account by the Board and each respective committee in determining performance improvements for the following year.

For personal use only

In accordance with this process, the Board evaluated the performance of its directors, itself and each committee in late 2016.

The People and Performance Committee also assists the Board with evaluating the performance of the Managing Director. The People and Performance Committee provides feedback regarding the Managing Director's performance in relation to key performance measures to the Chairman of the Board, who is responsible for conducting the Managing Director's performance review.

Twice yearly, the Managing Director undertakes a review of the performance of each senior executive against individual objectives and deliverables linked to the corporate plan that were agreed at the beginning of the performance period. These personal objectives relate to key areas of performance over which the individual has accountability and influence. The process for conducting these reviews is covered on pages 32 to 33 of the Annual Report. The performance reviews of the Managing Director and senior executives were conducted in August and at the end of the performance period in accordance with this process.

4.2 Director and executive remuneration

The People and Performance Committee obtain independent remuneration benchmarking information for comparative purposes. Salary reviews and short-term incentives are determined by assessing performance against both individual performance and profitability and sustainability performance targets. Long-term incentives vest subject to Return on Equity and Total Shareholder Return performance compared with that of an industry peer group. In 2016, the People and Performance Committee conducted those reviews in accordance with disclosed processes.

All senior executives are employed by Iluka under written employment contracts.

Further details about the remuneration structure, remuneration policies and remuneration paid to the directors and senior executives during the reporting period, as well as details of the contractual arrangements with senior executives, are set out on pages 25 to 43 of the Annual Report.

5 Risk management and internal controls

Relevant policies and charters:

- Board Charter
- Audit and Risk Committee Charter
- Risk Management Policy

5.1 Risk management

The Board recognises that the identification and management of risk is fundamental to achieving Iluka's objective: to create and deliver value for shareholders.

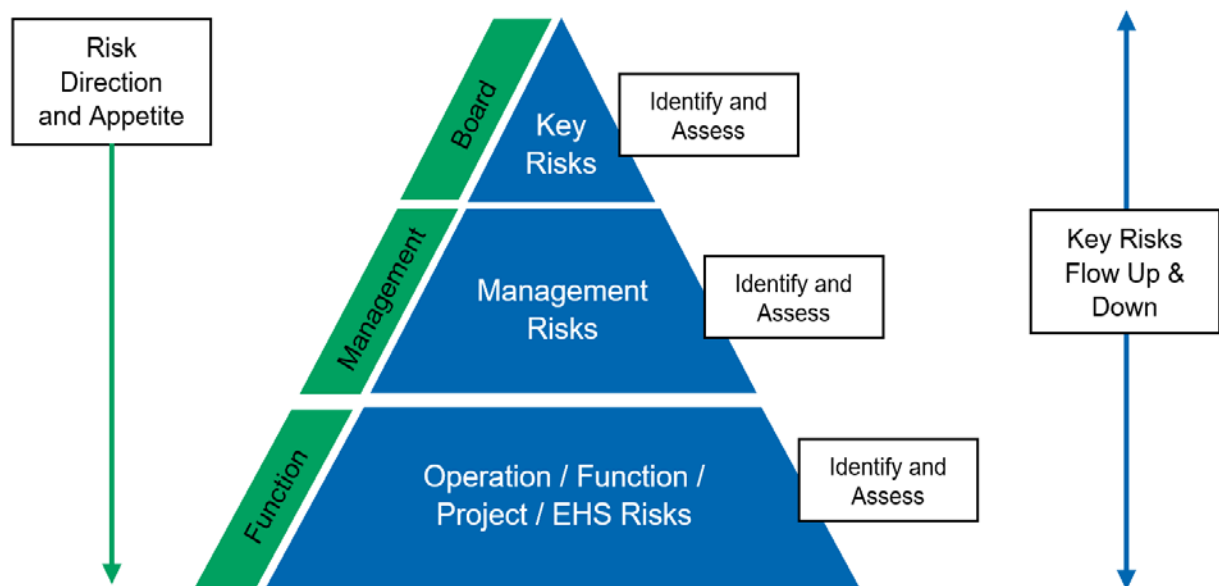

For personal use only

Iluka has a Risk Management Policy which sets out the objectives and performance expectations to managing risk in a proactive and effective manner, and supporting guidance including a Risk Management Framework that defines a 'whole of business' approach to the management of risks which allows both opportunities and threats to be identified and managed effectively.

Through the policy and framework, Iluka seeks to:

- embed a culture of risk awareness in decision making;
- identify, assess and manage risks in a structured and systematic manner;
- enable prudent risk taking in line with business objectives and strategies;
- establish and monitor appropriate controls in line with business objectives and strategies;
- implement prudent insurance strategies for insurable risks;
- ensure material business risks are effectively identified, communicated and appropriately elevated throughout all levels of management to the Board; and
- fulfil governance requirements for risk management.

The diagram below sets out the risk hierarchy where risk identification, assessment and reporting are undertaken at all levels of the business:

The Board has overall responsibility for reviewing, approving and overseeing systems of risk management and internal control. This includes reviewing processes to identify the main risks associated with the company and reviewing processes and systems in place to manage these risks.

For personal use only

The Audit and Risk Committee assists the Board with regard to oversight of Iluka's risk management practices by:

- developing an understanding of key risk areas and the consequences of major risk events;
- gaining assurance as to the adequacy of Iluka's policies and processes for integrating risk management into its operations;
- reviewing and making recommendations to the Board in relation to any incident involving fraud or other material break down of Iluka's internal controls;
- reviewing and reporting to the Board that the Audit and Risk Committee has, at least annually, reviewed Iluka's risk management framework to satisfy itself that it continues to be sound and effectively identifies areas of material potential risk; and
- reviewing the insurance strategy and determining the extent to which it aligns with the risk appetite and tolerance of Iluka.

In line with the ASX Principles, Iluka's Risk Management Framework is reviewed annually by the Audit and Risk Committee to satisfy itself and the Board that the framework continues to be sound. The review conducted during the reporting period included a consideration of its structure, procedure for risk identification and assessment, and the current approach towards risk appetite.

A copy of the Risk Management Policy can be found in the Governance section of Iluka's website. Further information outlining Iluka's approach to the management of risks is set out pages 5 to 7 of the Annual Report.

5.2 Internal audit

Iluka has an internal audit function (the Business Risk Management function) that assists the Board by undertaking an objective evaluation of Iluka's internal control framework. The Business Risk Manager is jointly accountable to the Chief Financial Officer (CFO) and the Audit and Risk Committee, attends Audit and Risk Committee meetings, presents internal audit activities and meets privately with the Audit and Risk Committee on a regular basis to ensure a degree of independence and objectivity to the role.

The Audit and Risk Committee is responsible for overseeing the internal audit function and its key roles are:

- reviewing the performance of the internal auditor and the approval of the annual internal audit plan;
- reviewing significant internal audit findings and action taken by management to address these; and
- facilitating a direct line of communication from the internal auditor which is independent of management.

When requested by the Board, the Audit and Risk Committee also reviews the processes and internal controls that management have put in place to ensure compliance with laws, regulations and Iluka's policies and internal codes of conduct.

For personal use only

5.3 Material exposure to risks

Disclosure of Iluka's material exposure to, and management of, risks (including economic, environmental and social sustainability risks) and the systems Iluka has in place to manage these risks is included on pages 5 to 7 of the Annual Report.

5.4 Managing Director and Chief Financial Officer certifications

Prior to approving the financial statements in respect of each half and full year financial period, the Managing Director and the CFO give a declaration to the Board that:
